

1 – Clicking on the navigation label brings you to a more “main” page for that navigation section.

2 – Each subcategory within the navigation label will have a short description on what can be found in this link, making it easy for the user to narrow down their search

3 – informational video is kept in view in case user requires more assistance

4 – Direct link to most important process - registering, put at the top in a visible manner so users can see it right away

5 – All information related to registering is found on this one page, and topics are separated by header

6 and 7 – images are used to clearly and quickly display information the user needs about locations, times and schedules. Instead of location/hour information being on a different page it is here as well now

8 – thorough steps to registering outlined below
